

Homework Guarantee Program

Optimus Learning School knows that our parents' main concern is to make sure their student's homework is completed and checked correctly. In response to this, we have implemented our Homework Guarantee Program to ensure that each student completes their school assignments.

Stamp System

OLS instructors are required to stamp a student's work to indicate that it has been checked. One stamp designates that the student's work has been reviewed; however, corrections need to be made. Two stamps mean that the student's work is complete and corrected.

Daily Comments

Through our online system, OLS instructors post daily comments regarding a student's academics, behavior, and homework status. Parents may view these comments through the OLS system or the MyOLS App.

Unsatisfactory Homework

At Optimus, we understand that mistakes can be made; however, they should be few and far between. To minimize unsatisfactory homework, parents may submit images of their student's work through our MyOLS App.

Response to Unsatisfactory Homework

If an OLS instructor's student has submitted unsatisfactory homework, the instructor will be required to meet with the Optimus Supervisor. After the meeting, email communication will be sent to the student's parents to discuss the conference's details and the plan that will be implemented going forward.
